

ITANTA

Democratizing Manufacturing Analytics

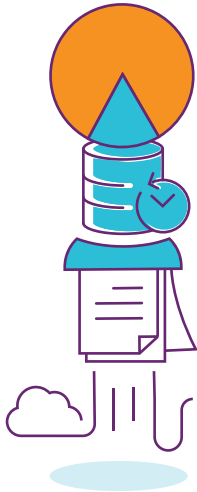

Effortless

|

Platform-Agnostic

|

Code-Free

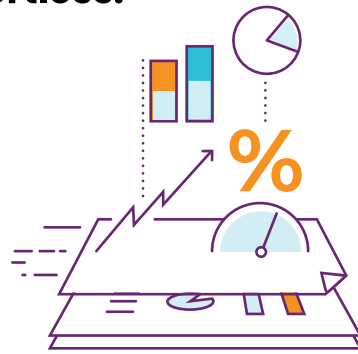

Easy and Fast

Designed and developed by a team of experts in industrial automation and software development to be highly intuitive, ITANTA allows you to develop reports **without a single line of code.**

Powerful and Compliant

Drill down deep into data to find insights or pre-configure regulatory compliance reports. Share reports in your desired format. **ITANTA makes it effortless.**

Pull and Push

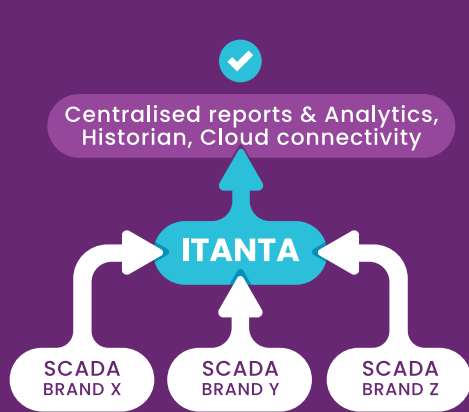

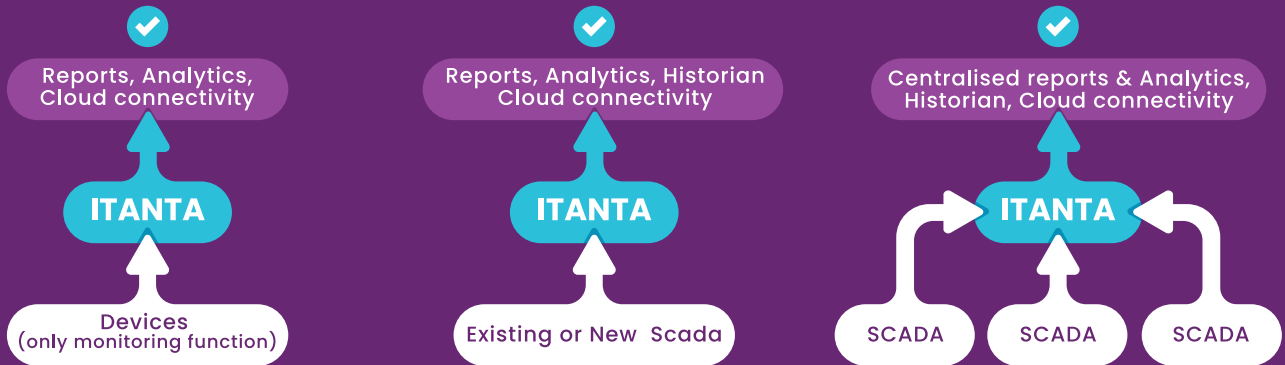

Easily pull data from any PLC, SCADA, Historian, HMI, Database, or IIOT device thanks to over **45 pre-built connectors** and push to your ERP, MES, or Forecasting system.

Cloud and On-Premise

Experience painless, remote deployment and watch ITANTA work seamlessly with **legacy as well as new installations** alike.

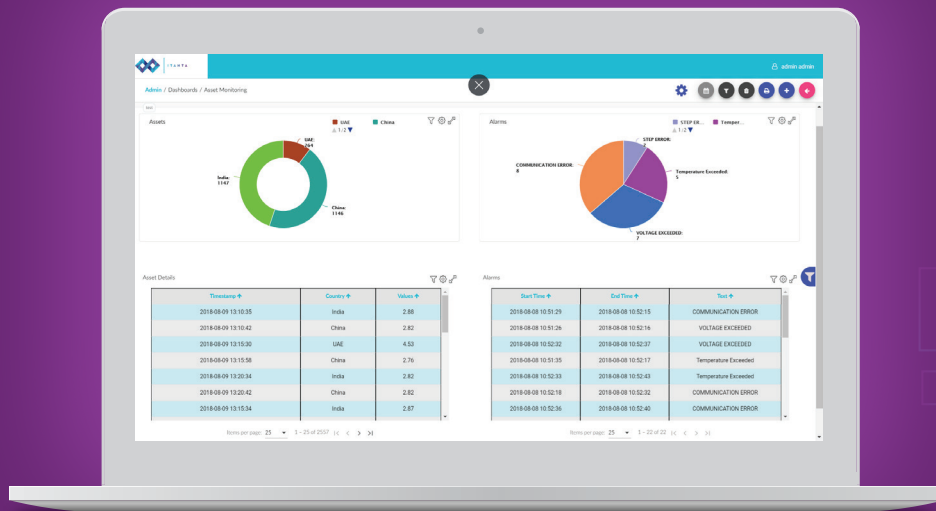

Typical Industry Scenarios

Thus, **ITANTA** Replaces Piggybacks on

- ✓ Industrial controllers (New / Existing Devices)
- ✓ SCADA (Existing & New)
- ✓ IIOT Platforms

Generate and Distribute Beautiful Reports
